OK, I think I know what that is – the Life Science Building project is reconfiguring Stockbridge Road and will be removing the access road from the Jersey Barrier on up the hill. They've also blocked off and will eventually (soon?) remove the temporary lot we installed next to the east entrance to the building.

The good (but old) news is that the number of parking spaces that are in the Morrill I/IV North lot were increased by the spaced I "illegally" added along the side of the road – those stay (though the ones past the barrier are of course now lost).

Jeff Quackenbush is the PM on the project: [jquacken@facil.umass.edu](mailto:jquacken@facil.umass.edu) , (413) 545-6453.

I hope this helps a little.

Yes, the top part is blocked by a concrete berm.

Sorry Jim -- I've been out and just got to this. I have no idea who was/is blocking the driveway. I assume you are talking about the one from North Pleasant Street? Is this still the case?

Burt

Hi Burt,

Is that the Vivarium Project that has ¼ of the Morrill I driveway blocked? The space is not being used and 3 parking spaces are lost as well as large trucks can't back into Morrill I delivery area. If not your project who do I contact?

Thanks,
